

Elpas Demonstration Kit

The Elpas Demonstration Kit provides everything your salesmen or technical people need to show potential customers the features and benefits of Elpas Active RFID/RTLS Safety, Security & Visibility Solutions.

The Kit is a fully functional Active RFID/RTLS Technical Presentation Toolbox for conducting live demonstrations of Elpas BabyMatch Infant Abduction Protection, Asset Management and Inventory Protection, Wandering Patient, Nurse Presence and Wireless Patient/Staff Duress Call applications.

For ease of shipment and setup, the Elpas Demonstration Kit is pre-wired and custom fitted into an airline legal carry, injection molded travel case that provides crush proof protection of your valuable Elpas demo hardware.
